# Evosys' Technology Offerings

# Technology Offerings

## Application Development

- ADF Based Applications
- OAF Based Applications
- Enterprise Mobility Applications on Diverse Platforms

## Enterprise Application Integration

- Oracle SOA Suite Based Integration
- Oracle Data Integrator

## Enterprise Collaboration

- Oracle WebCenter Portal

## Enterprise Content Management

- Oracle WebCenter Content
- Oracle WebCenter Imaging
- Oracle WebCenter Records
- Oracle WebCenter Capture

## ECM Integrations

- EBS Integration
- Siebel Integration
- AutoVue VueLink

## Database Management

- Oracle RDBMS Installation, Configuration & Upgrade
- Oracle Enterprise Management Pack Configuration
- Oracle Data Masking Pack
- Oracle Data Guard Implementation
- Oracle Advanced Security
- Oracle Database and Audit Vault

## Oracle Cloud Services

- Oracle Java Cloud
- Oracle Database Cloud
- Oracle Mobile Cloud
- Oracle Messaging Cloud
- Oracle Integration Cloud
- Oracle SOA Cloud
- Oracle Sites Cloud
- Oracle Process Cloud
- Oracle Document Cloud

# Oracle Cloud Services by Evosys

**Evosys** *Passionate Evolutionary Friendly Meaningful*

- Oracle Java Cloud Service is a part of the platform service offerings in Oracle Cloud. Powered by Oracle WebLogic Server, it provides a platform on top of Oracle's enterprise-grade cloud infrastructure for developing and deploying new or existing Java EE applications.

**Oracle Java Cloud**

- Oracle Database Cloud Service offers a choice of different editions. All editions are the same code that runs with Oracle Database on-premises but with the Oracle Database Cloud Service, database options are bundled to meet your needs.

**Oracle Database Cloud**

- MCS is cloud offering that simplifies and secures the process of connecting your mobile applications to your enterprise systems and other cloud services.

**Oracle Mobile Cloud**

- It provides a messaging system for applications to communicate reliably with each other, enabling application developers to share information across multiple applications.

**Oracle Messaging Cloud**

- It includes an intuitive web based integration designer for point and click integration between applications, a rich monitoring dashboard that provides real-time insight into the transactions, all of it running on a mature runtime platform on Oracle Cloud.

**Oracle Integration Cloud**

- It a comprehensive and unified cloud-based integration that provides easy provisioning, simplified management, automated upgrades and the ability to easily scale out, enabling users to quickly develop and deploy APIs.

**Oracle SOA Cloud**

- Oracle Sites Cloud Service drives digital engagement for employees, customers and partners through intuitive assembly of content, applications, and processes to build rich community and marketing sites.

**Oracle Sites Cloud**

- In a zero-code, cloud-based infrastructure, Oracle Process Cloud Service empowers the business user to manage the entire lifecycle of business processes and gain actionable insight on process health and SLAs.

**Oracle Process Cloud**

- It helps to keep your files at your fingertips, because the files are in the cloud and accessible from wherever you are. It's easy to keep everything current and to get things done. Simple. Secure. Everywhere.

**Oracle Document Cloud**
